Search Option Example

When searching by a text string such as party name or case title, you have 3 options. If the case title is “Home Builders, Inc. vs George M. Periott”, to search by:

- Begins with – use “Home” or “Home Builders”
- Equals – use the exact title, “Home Builders, Inc. vs George M. Periott” (this is the fastest search)
- Includes – use “Builders” or “Periott” or other words that are part of the title (warning – this search could be very slow, and possibly result in a time-out error)
